PROFILE SUMMARY

Enthusiastic and results-driven MERN Stack Developer with 4+ years of experience building robust web and mobile applications using React, Node.js, MongoDB, React Native, MySQL, AdonisJS, and NestJS. Proficient in JavaScript, RESTful APIs, and Git workflows, with hands-on exposure to AWS, microservices architecture, and team management. Strong problem-solving and communication skills with the ability to thrive in both collaborative and independent environments. Currently pursuing a BSCS degree and passionate about learning emerging technologies and scalable software design.

STRENGTHS AND EXPERTISE

Cross-Platform App Development	Microservices Architecture	Real-time Features Integration
API Development & Integration	Database Design & Optimization	Backend Performance Tuning
Cloud Deployment & AWS Integration	Team Management	Plugin & SDK Integration

PROFESSIONAL EXPERIENCE

Intersys Ltd. Software Engineer

Apr 2022 – Present

Built scalable web apps using Node.js and NestJS with React frontends. Integrated microservices, managed databases (MongoDB/MySQL), and state using Redux. Deployed on AWS and lead Development teams with a focus on clean, maintainable code.

Accomplishments:

- Developed scalable web applications and RESTful APIs using Node.js and NestJS.
- Built dynamic and responsive frontend interfaces using React.
- Integrated microservices architecture to enhance modularity and maintainability.
- Worked with MongoDB and MySQL for efficient data modeling and performance optimization.
- Managed state on the client side using Redux for seamless data flow.
- Deployed applications on AWS and handled cloud-based services and integrations.
- Led small development teams, conducted code reviews, and ensured high code quality.
- Stayed up-to-date with modern tools, frameworks, and industry best practices.

Silvertech Solutions MERN Stack Developer

May 2021 – Mar 2022

Built full-stack web applications using the MERN stack, developing and integrating RESTful APIs for seamless frontend-backend communication. Focused on writing clean, testable code with an emphasis on performance and scalability. Actively contributed to agile teams through sprint planning, code reviews

Accomplishments:

- Built full-stack web applications using MongoDB, Express, React, and Node.js.
- Developed and consumed RESTful APIs for frontend-backend communication.
- Ensured clean, testable code with strong attention to performance and scalability.
- Troubleshoot and debugged issues across the stack, improving app stability and UX.
- Collaborated in agile teams, contributing to sprint planning, code reviews, and deployment.
- Stayed up-to-date with modern tools, frameworks, and industry best practices.
- Deployed applications on AWS and handled cloud-based integrations.

EDUCATION

Bachelor's degree

Majors: Computer Science
Sindh Madressatul Islam University
